[Home](#) > I'm being approached about a commission, what should I do with regards to Adagp ? Can you handle a commission agreement ?

---

If you're approached by an organisation wanting to commission a work, you can get Adagp to draw up the agreement for you.

You can also negotiate the payment due for the commission directly with the party concerned. However, it is essential to include a standard clause (provided by us) in the agreement concerning the fact that you are a member of Adagp so we can act for you in collecting your reproduction/public communication royalties for the work concerned.
