[Home](#) > How are sales monitored ?

---

Accredited by the French Ministry of Culture, ADAGP is informed of all sales over 750 Euros in France, made by artists, members or not, who might benefit from the resale royalty. It also has various information and search tools at its disposal.

Therefore, it is not necessary to inform us when one of your works is offered for sale or sold. That said, do not hesitate to send us any information you consider appropriate.

Sales in the countries of the world that have adopted the resale right in their legislation are covered by our sister companies.

Given the huge number of artists and data managed, members cannot be personally notified.
